Keeping the proposal of an academic-scientific dissemination medium with an interdisciplinary profile, the RPPI brings to the academic community, researchers, students and other interested parties, a contemporary debate on subjects associated to and integrated with public policies and international cooperation.

The issues of 2020 has articles published in two languages, Portuguese and one version in a second language (Spanish or English), chosen by the authors. In the same direction, the new journal system allows access in three languages (Portuguese, English, and Spanish). Thus, we now meet the criteria of internationalization, accessibility, and international dissemination to authors and readers of scientific work published in the RPPI. With these improvements, we hope to increase the reach of our publications and comply with of the indexing bases of national and international academic and scientific productions (Web of Science, Scopus, Scimago, index h, among others). The improvements on our system also aim to expand our collection of international publications, as well as to contribute to the dissemination of the public policy debate at the domestic and international levels.

Given the accessibility, security, and trust requirements of the documents published in the RPPI, all are available in PDF / A, as informed in the editorials of the year 2019.

We gladly present volume 03 of 2020, which brings together articles on different subjects meeting the Public Management and International Cooperation Post-Graduation Program and RPPI thematic proposals. Thus, we maintain our goal of advancing academic and scientific dissemination, opening space for plural, integrated production, reconnecting the constitution areas of knowledge to practice, devolving information to

society and practitioners. We, the editors and editing assistants, wish you a good reading, happy holidays and, a great 2021!

Alexandre César Cunha Leite   
Editor-Chefe da Revista Brasileira de Políticas Públicas e Internacionais
